This agreement covers labor for annual pre season "Planned Service" and PRIORITY emergency repairs during regular business hours. Under this agreement repairs made beyond normal business hours will be billed at prevailing rates less a 10% discount. This agreement does not cover cabinet, duct work, zone dampers, non visible refrigerant leaks, mold issue, equipment replacement and/or modifications, coil cleaning, electrical or plumbing problems beyond equipment proper, or problems beyond "normal wear and tear". Call National Grid or local fire department for all Carbon Monoxide or Gas Smells! All equipment is subject to inspection prior to issuing a service contract. Flynn Aire reserves the right to terminate this agreement if any balances go unpaid.

Service contract customers are always given PRIORITY!
